3/13/2018	Christopher Rhode	<p>I am currently conducting research on the cost of local elections under different election methods. The municipalities of San Jose and Santa Clara, CA were selected for examination in that study. It is my understanding that these cities contracts with Santa Clara County to run their elections. I have attached a public records request letter to this email. I am seeking information on the cost expended by municipalities on elections including on ballots, mailing materials, election staffers, and other election costs that are not ongoing costs to municipal departments. 		<p>On behalf of the Fire Chiefs please find questions and request for clarifications regarding the Request for Proposal: Exclusive Operating Area for Ambulance Services (RFP).</p> <p>1) Expectations and Performance Standards</p> <p>a) What are the expectations from County EMS of the Fire Departments specifically for ALS and Basic Life Support (BLS) 911 response times?</p> <p>b) What are the Minimum First Responder (FR) ALS service levels?</p> <p>i) The current contract requires a first-responder fire paramedic to arrive at the scene to stop the clock for the Ambulance Contractor FR response at 7:59 seconds. Will this same minimum FR ALS service level be required by County EMS to the Fire Departments?</p> <p>c) Shall County EMS require one or two paramedics on scene?</p> <p>i) All EMS calls?</p> <p>ii) Only high priority calls? If so, please define "high priority calls".</p> <p>d) Is it proposed or assumed that the fire departments will be stopping the response time clock for the Ambulance contractor? Is it proposed or assumed that fire agencies will be held to the same time standard as previous FR agreements?</p> <p>f) As the regulatory agency, is County EMS still going to provide EMS system oversight with penalties and fines for ALS FR fire agencies who do not meet current response time criteria?</p> <p>g) What is County EMS oversight related to timeliness of response?</p> <p>2) Extended Response Times for Contractor Ambulances</p> <p>a) Is it proposed or assumed that fire departments will continue to remain on scene for extended periods of time waiting for contractor ambulances to arrive? County EMS instructs the FRs to submit variance reports when this occurs; is it proposed or assumed that this will continue to be the system?</p> <p>b) Will there be a new time measure for the contractor ambulances? Currently, to determine response time measures, there is an arrival on scene time (standard response time measure), but nothing for the time measurement from patient loading to ambulance departure. ("Load and transport time").</p> <p>c) Will the response standards for the Provider remain constant and be in effect throughout the life of the contract? The current RFP lists a response time requirement in an attached policy, rather than in the contract itself. Can contractual time standards be adjusted with the simple change in County policy?</p> <p>d) Will there be a measurement to identify and quantify this deficiency? The Fire Chiefs request a measurement be established to quantify the above identified deficiency. Has a compensation method been identified for FR ALS fire agencies to claim cost recovery for remaining on scene for unreasonable and extended periods of time waiting for the arrival of contractor ambulances?</p> <p>f) Has compensation method been identified for FR ALS and BLS fire agencies when fire personnel maintain patient care and/or assist with patient care during transport to the hospital?</p> <p>g) Has compensation method been identified for FR ALS and BLS fire agencies for non-fire related emergency structure rescue, equipment/machinery rescue, vehicle rescue/patient(s) extraction and patient hazmat rescue and</p>	

3/28/2018	Derek Witmer, Santa Clara County Fire Chiefs Association	<p>decontamination</p> <p>3) Costs, Fees and Reimbursement</p> <p>a) Is it proposed or assumed that County EMS expects fire agencies to absorb all costs for Fire FR EMS services?</p> <p>b) If there is no fire department FR reimbursement, is this a gift of public funds as the provision of EMS is the responsibility of the County?</p> <p>c) If the ambulance contractor bills for these services or expendable medical products, and there is no reimbursement, is this a violation of Federal Medicare rules?</p> <p>d) Why is there no mention of compensation for similar levels of service?</p> <p>e) Since the ALS Fire FR funding is being removed from the new RFP, where is this funding going?</p> <p>f) Where are the "penalties and fines" funds going?</p> <p>g) Did any discussion take place regarding continuing Fire FR compensation?</p> <p>4) Training, Certifications, Tracking</p> <p>a) The current contract allows ALS FR fire agencies to receive paramedic continuing education tracking, training, certifications, replacement of disposable supplies and annual funding allocations. Is it proposed or assumed that each ALS FR fire agency be financially responsible for all costs associated for continuing ALS FR services?</p> <p>b) Will certifications and continuing education still be covered financially by the ambulance contractor? This is not clear in the RFP. Including:</p> <p>i) Professional certifications of CPR/ACLS/PALS</p> <p>ii) TargetSolutions web based training? The RFP states, "access to continuing education training". There is no reference that this includes the comprehensive model that includes overall credential management.</p> <p>5) Fragmentation of Service Levels</p> <p>a) Has the County considered the effects of a fragmented delivery system, especially if some agencies decide to decrease ALS Fire FR service levels due to non-reimbursed costs?</p> <p>b) Current ALS Fire FR response model requires a FR fire paramedic arrive within 7:59 minutes. With the deletion of ALS Fire FR reimbursement in the current RFP, some fire agencies may elect to suspend ALS responses within their jurisdiction. As a consequence, County EMS will have some cities or areas not covered by ALS Fire FR. What is the plan from the County to address such potential scenario?</p> <p>6) Delivery Model Options / STAR Cars</p> <p>a) Is the County open to discussing fire agencies expanding Supplemental Transport Ambulance Resources (STAR Car) services if it benefits the system?</p> <p>i) The cities of Santa Clara, San Jose, Milpitas, and Gilroy currently possess the ability to respond and provide patient transportation services with their STAR Cars under certain restrictive criteria. Would County EMS consider significantly reducing these restrictions to allow more frequent use and transportation within their cities?</p> <p>b) How would the STAR Cars be merged into the delivery system?</p> <p>i) Can there be an opportunity with the new RFP, for STAR Cars to provide scheduled coverage within their respective cities during peak utilization hours?</p> <p>7) Restocking of Medical Supplies</p> <p>a) How does County EMS enforce the current policy on medical supply replacement?</p> <p>b) Is there language regarding oversight of the contractor meeting supply exchange, and accountability, including reconciliation reports to each agency?</p> <p>c) There is concern on how changes of equipment are deployed without training and time to familiarize? Will the FR Fire ALS agencies have input and training on new equipment utilized by the ambulance contractor?</p> <p>d) If the new RFP doesn't allow for exchange and the contractor bills for used supplies, the Cities may consider this a "Gift of public funds". To avoid such conflict, is the County going to reimburse the cities for such EMS supplies costs?</p>	4/9/2018

It is very easy for you to support our oversight needs as it amounts to doing two things: 1. Publishing the "semi-final official canvass" results (the "Snapshot" of the election results) BEFORE each random selection of the manual tally precincts or batches is performed, and 2. Providing your 1% manual tally report.	5/21/2018

5/23/2018	Vinu Anuradha Weerasinghe	<p>1. On average, how many vehicles per hour drive through Central Expressway during rush hour (4pm-7pm)? Do you have any numerical data on traffic on Central Expressway (can be from anywhere in Sunnyvale)?</p> <p>2. What are the main reasons for congestion along that corridor?</p> <p>3. At around what time does congestion get the worst along Central Expy?</p> <p>4. Has safety become an issue as a result of the high volume of traffic moving along Central? Are there an increased number of motor vehicle or cycling accidents there?</p> <p>5. Has congestion been an issue in other parts of Sunnyvale? How were those issues solved/mitigated in the past?</p> <p>6. Do you think that my two potential solutions are feasible and could resolve the traffic issues on Central at Mary?</p> <p>a. Solution 1: Increase the number of lanes for vehicles traveling on Central (taking up space in the current median). L</p> <p>1. Less expensive, but could lead to induced demand since people who usually take US-101 would divert to Central instead.</p> <p>b. Solution 2: Construct an overpass over Mary and implement a roundabout which connects the on- and off-ramps.</p> <p>1. Similar to this, except having Central go over Mary: <a href="https://www.google.com/maps/@42.7480982,-73.7611373,300m/data=!3m1!1e3">https://www.google.com/maps/@42.7480982,-73.7611373,300m/data=!3m1!1e3</a></p> <p>2. Did another disabled American parents cause trouble, daily at the noon hour at any public school? If you can produce evidence in my favor, you deserve a gold star. 6/22/2018	Dan Pulcrano, Metro News	We are requesting the immediate release of the transcripts of testimony in the Donald Morrissey v. Laurie Smith arbitration. This is a matter of extreme public interest and a delay will harm the public's right to know in a timely fashion. Based on the statement below, which Mr. Morrissey sent out to members of the DSA in a general email, he is waiving his right to privacy in this matter and there is no longer an expectation of personnel matter confidentiality. Yet, as Captain Doty testified under penalty of perjury, no one in this Department had, before me, EVER been disciplined for failing to report any off-duty speech by any other employee. Moreover, Doty testified that no one has EVER reported any off-duty speech by a co-worker. I was demoted for failing to be the first person to report on the off-duty speech of others. It is not acceptable for one party to publicly argue using selective, out of context excerpts from transcripts while not allowing the general public and the news media the ability to review the full record.	7/2/2018

Any assistance in how we can improve our application would be greatly appreciated.	7/5/2018
6/25/2018	Devon Porter/Natasha Minsker, ACLU	It has come to our attention that some Registrars of Voters are not processing ballot initiative petitions in the order received. It has been alleged that instead, Registrars are responding to political pressure to process the petitions for some campaigns more quickly and before processing the petitions of other campaigns that were submitted weeks earlier. This raises serious due process and fairness questions. The right to petition the government is a fundamental right, protected by the First Amendment. Government officials fulfilling a ministerial duty regarding such petitions must do so with the utmost integrity and attention to the law. In order to investigate these allegations, on behalf of the American Civil Liberties Union of Northern California, the American Civil Liberties Union of Southern California, and the American Civil Liberties Union of San Diego and Imperial Counties, we submit this request, pursuant to the California Public Records Act ("PRA") and Article I § 3(b) of the California Constitution,[1] for records in the possession of the County Registrar relating to the timing, procedures and order for signature verification for state ballot initiatives. The request for all records relating to the County's signature verification process for state ballot initiatives includes, but is not limited to: 1) All communications on this topic from May 1, 2018 to the present, including communications, both oral and written, between Registrar staff and elected officials, members of government, members of the public and proponents of a proposed ballot initiative; and 2) All records relating to any policies, guidelines, instructions or directives concerning the order in which signatures for state ballot measures are processed; and 3) All records relating to any steps that can be taken or have been taken to process signatures more quickly than routinely done. The request for communications includes emails, letters and any other written correspondence, as well as notes and other records memorializing phone and in person conversations.	7/5/2018

[RE: ITEM #1] Left and Right turn pockets at Calle Celestina 1. A copy of the denial or rejection document and any attachments for the grant application clearly dated. 4. A detailed explanation of why no further efforts were made over the past 12 years to obtain funding from either external or internal budgeting processes if allowed. 5. The current County of Santa Clara Action Plan details to facilitate the long overdue completion of this item. [RE: ITEM #2] Reduce speed on curve advisory speed sign (yellow) 1. The date and duration of a specific Engineering Study that resulted in the existing 35MPH speed advisory sign being installed within the Watsonville Road "PUBLIC DANGER ZONE" section passing through Agricultural Zoning just prior to the Day Road. 2. The date and duration of a specific Engineering Study that resulted in the formal 35MPH speed limit sign being installed on Watsonville Road at the intersection with Redwood Retreat Road. 3. The date and duration of a specific Engineering Study that resulted in the 40MPH speed advisory sign being installed on Watsonville Road prior to Heritage Way intersection. 5. Copies of all above referenced Engineering Studies and any Exhibits thereto. 9. If no engineering studies with Speed Capture devices were done between January 1, 2006 and June 30, 2018, an explanation of exactly why not. [RE: ITEM #4] Yellow flashing beacon - At curves 1. A copy of any Federal, State, or County Law, Ordinance, Policy or Statute that allegedly "disqualifies" the installation of a yellow flashing beacon prior to the Watsonville Road and Heritage Way intersection, which is the immediate gateway to the downhill sloping, partially blind curve leading to the Dangerous Watsonville Road and Calle Celestina intersection with a longstanding history of accidents and property damage. 2. A copy of any Traffic Engineering study which "Qualified" installation of Yellow Flashing Caution lights along both the Northbound and Southbound lanes of Santa Teresa Blvd prior to the 4-way intersection with full regular traffic lights and separate Ingress/Egress lanes on the level roadway at the Fitzgerald Avenue intersection. [RE: ITEM #6] Wider Lanes by reducing bike lane widths - Along Watsonville Rd. 1. A copy of the full Grant Application, including any and all Exhibits, that resulted in the approximately \$750,000 funding for essentially expanding and paving the "Bicycle Lanes" on Watsonville Road in the Fall of 2017, along with any other documentation that demonstrates the County gave full serious consideration to "mix of traffic" vehicle type measurements, "Real-World" local area motorist driving "Mindset", bicyclist illegal riding behaviors, and out-of- area increased traffic flow to and from the RV Parks on Watsonville Road during the Summer months. Additionally, that road repairs were to include the Dangerous "Narrow Bottleneck" road area, similar to a "narrow bridge" road factor, adjacent to the Oak Dell RV Park entrance. 2. A copy of any Grant "Approval" documentation, including any and all exhibits indicating any Restrictions or additional "Mandatory Requirements" as a condition of the Grant. 3. Details of approximately how many hours per day the County of Santa Clara expects "Law Enforcement Speed Patrol" duties to be performed by the California Highway Patrol on Watsonville road between the Uvas Road intersection and the Day Road intersection. Explain exactly how County Officials "monitor and track" this "Law Enforcement" for Speeding Violations activity, and include copies of all such reports for the period from January 1, 2006 through June 30, 2018. [RE: ITEM #10] Add "Double Fine Zone" signs 1. A copy of any Federal, State, or County Law, Ordinance, Policy or Statute that allegedly "disqualifies" the installation of these signs in an area with a history of accidents, speeding issues, and known alcohol consumption. 2. Considering the primarily "RESIDENTIAL" Zoning along this section of the County G8 "Wine Trail" roadway, explain what equivalent optional signage solutions the County can pursue. [RE: ITEM #18] Cut hillside to improve visibility at Calle Celestina 1. The date(s) of which the previous project "improvements" to the hillside were done. 2. A specific County Ordinance, Policy or Statute reference that states funding for this type of accident mitigation improvement on any Santa Clara County roadway can ONLY come from external funding. 3. As a reference point, how much did Los Altos pay the Santa Clara County Registry of voters for that measure?	9/24/2018

9/14/2018	Dan Noyes, ABC 7	<p>After the Sheriff's Debate at Evergreen College in San Jose Wednesday evening, September 12th, I attempted to question Sheriff Laurie Smith for one of my reports as she left the building (around 8:15-8:30pm). As I recorded with my large Channel 7 camera, several of her command staff pushed, grabbed and body-blocked me in an effort to prevent me from doing my job. Several of them were apparently recording the scene on their department-issued cell phones. And if they were recording on their personal cell phones, I would argue it's public record because they were on duty.</p> <p>Under the California Public Records Act, I hereby request copies of those cell phone recordings of the incident. On my camera, it lasts less than four minutes, so the process of finding and copying the videos should not be cumbersome.</p> <p>I know for sure that the following members of the Sheriff's Command Staff were recording:</p> <ol style="list-style-type: none"> <li>1) Eric Taylor, Assistant Sheriff of Custody</li> <li>2) Rick Sung, Undersheriff</li> <li>3) Robert Durr, Captain</li> </ol> <p>The following Sheriff's Department personnel were also there, and I suspect may have also recorded the incident:</p> <ol style="list-style-type: none"> <li>4) Richard Glennon, PIO</li> <li>5) Regi Cook, Custody PIO</li> <li>6) James Jensen, Captain</li> <li>7) Jim Helms, Captain</li> <li>8) Julian Quinonez, Lt</li> </ol>	9/24/2018
9/14/2018	Dan Noyes, ABC 7	<p>This is my second request in connection with the incident after the Sheriff's Debate at Evergreen College in San Jose Wednesday evening, September 12th, when I attempted to question Sheriff Laurie Smith for one of my reports as she left the building (around 8:15-8:30pm).</p> <p>Under the California Public Records Act, I hereby request copies of any emails emanating from the following Sheriff's Department personnel's county phones or computers that mention "Dan Noyes", "Noyes", "Channel 7" or "ABC7" from Monday September 10th through today, Friday September 14th. If so, please point me to the policies and procedures on that issue. 37. Did the DAO ever investigate the failures of the SJPD to recognize domestic violence involving officers following the murder suicide of the Shimeks of Gilroy? 9/20/2018	Dan Noyes, ABC 7	<p>I am filing a third request under the California Public Records Act. The morning of August 25th, correctional officers were transferring inmate Andrew Hogan from Elmwood Jail to the Main Jail. En route, Hogan began to bash his head on a post in the van's cage. The officers radioed dispatch. When they arrived at Main Jail, they called for assistance. It took minutes for supervisors to arrive, and when they did, Hogan was reportedly still injuring himself. It took EMS 20 minutes to arrive, after the van pulled in.</p> <p>I hereby request recordings of the radio transmissions that morning, copies of the officers' body camera recordings, and surveillance video from the Main Jail's intake ramp or sally port, that will show the van present with staff.</p>	10/1/2018
9/20/2018	Dan Noyes, ABC 7	<p>I can try to find the call signs for the officer. This from the Mercury News is accurate:</p> <p>The 24-year-old inmate, who had been in custody at the Elmwood men's jail in Milpitas on a misdemeanor assault charge and a probation violation, was in a Sheriff's Office van headed to the Main Jail in North San Jose around 9:50 a.m. Saturday morning.</p> <p>Does that help? It was August 25th. There should be radio traffic from the officers to the Main Jail asking for help to stand by. And as we discussed, the officers had body cameras; they aimed one to the back of the van so they wouldn't be blamed for excessive force (the inmate was injuring himself). And the surveillance video at the Main Jail's transfer ramp or sally port should show the van and personnel's actions.</p>	10/1/2018

9/24/2018	Michael Ellerin, Committee for Yes on C	<p>As Treasurer for the Committee for Yes on C, I have the responsibility to know more about voting costs.</p> <p>Many Los Altos candidate forums are being conducted this election season. Candidates are asked how they feel about the high cost of an election that Measure C might require if public lands are being sold or leased for private purposes. Measure C opponents would like residents to believe that the \$372,000 cost to vote on Bond Measure A in the November 2015 election is a typical cost. And yet, Measure C is only costing the City of Los Altos about \$50,000 to put it on the November ballot. I don't fully understand the reason for the major difference.</p> <p>Question #1: I know that when there are only a few items to vote on, municipalities might pay upwards of \$500,000 to share the voting cost. In the case of Measure A in November of 2015, did the high cost come from Los Altos putting Bond Measure A on the ballot in an "odd-year"? If the same number of participants were to share the voting cost for Measure A in 2016, would the cost to put Measure A on the ballot still have been \$372,000? In other words, does even versus odd year voting affect the costs to place a Measure on the ballot? Or is the cost based strictly on the number of other participants sharing the cost assuming the number of pages of the Measure are the same?</p> <p>Question #2: I understand that setting up a vote by mail ONLY Measure can be done. If no other participant shared the cost of a "vote-by-mail" exercise, what would be the cost for a six page Measure be to reach the 19,500+ voters in Los Altos?</p> <p>Question #3: Is it possible to ask for the costs of every Municipal Measure voted on in Santa Clara County over the last ten (10) quarters (2016 through the June 2018 primary)? I am not talking about the costs to elect candidates or the cost of State or County wide Measures. I'm asking for only the costs that Municipalities had to pay to put Municipal Measures on the ballot like Los Altos' Bond Measure A in 2015 and their Measure C in 2018 that would amend our General Plan if passed by the voters.</p>	10/4/2018

2/8/2019	Dan Pulcrano, Metro News	<p>I have a few questions about the Measure A program.</p> <p>1. Land Purchases: I noticed in the NOFA there is a requirement that "For new developments, applicants must include the opportunity for the County (and/or another public entity) to eventually own the land as ground lessor under a long-term ground lease structure or some other land dedication/subdivision mechanism that will ensure long-term affordable housing as the primary use of the land."</p> <p>What is the genesis of this requirement? Did it occur after the passage of Measure A, because I don't recall it being in the ballot language. Please send me copies of any documents, such as meeting minutes or emails, that discuss this or led to the inclusion of the land purchase requirement in Measure A projects.</p> <p>Also, can you send me figures detailing how much is being spent or budgeted for land acquisition, along with details on properties that have been purchased so far, or are being considered for purchase?</p> <p>2. Leverage. The NOFA discusses achieving "the highest reasonable financial leverage of capital resources." Do you have any documents detailing how much leverage the Measure A program has achieved or plans to achieve? For example, will 950 million in bonds result in \$2 billion in housing? Do you have stats on leverage by project?</p>	2/19/2019
